

Collagene Expert™ Plumping Revival Mask 75ml

An intensely hydrating and plumping mask with a rich, creamy texture. It stimulates collagen production and smooths fine lines and wrinkles. Leave on overnight for intensive treatment. Skin looks plumped, smooth, and radiant with lasting hydration.

Apply generously to cleansed skin. For a quick treatment, leave on for 10 minutes, then rinse. For intensive treatment, apply a thin layer before bed and leave overnight. Use 2-3 times a week, especially after exfoliating.

Renewing Peeling Gommage 15ml

A gentle exfoliator for the face and neck with menthol and nutritive oils. It removes dead skin cells, impurities, and dry skin for a smooth, supple, and radiant complexion.

Apply a thin layer to the face and neck, avoiding the eyes. Massage lightly until the cream changes texture and rolls off. Remove with warm water, tone, and blot dry. Repeat twice a week. For a deeper treatment, apply a thick layer, leave for 20 minutes, then peel off.

Golden Glow Gradual Tan 75ml

Fast-absorbing cream-gel for instant hydration and gradual body tanning. This moisturising formula gives a natural, sun-kissed tan that builds up over time.

Apply as needed in smooth circular motions, ensuring thorough rubbing. Gently blend over dry areas like hands, elbows, knees, and feet. Wash hands after use, especially between fingers, and wait until skin is touch dry before dressing. The colour develops over 3-4 hours. Use for 1-3 days to achieve your desired glow, then simply top up as needed.
